08.45	C.L.U. (Club Litiasi Urinaria) LECTURE Presenter: M. C. Sighinolfi Role of extracorporeal of lithotripsy in the treatment of lithiasis D. Prezioso
09.00	E.R.U.S. (EAU Robotic Urology Section) LECTURE Presenter: M. Gallucci Open versus robotic radical cystectomy with intracorporeal urinary for bladder cancer: pros and cons A.E. Canda
09.15	LECTURE Presenter: G. Bianchi New robotic devices J. Rassweiler
09.30	Open coffee break
10.30	

Italian Endourology Meeting was held on 23-25. February. 2017 in Padova, Italy.

I was honored to be invited to give an ERUS talk on "Open versus robotic radical cystectomy with intracorporeal urinary diversion: pros and cons". During my 15 minutes talk, I made a literature review on this subject and presented our experience and also edited surgical videos.

This meeting was a great success that included many live surgeries on endourology in addition to attractive lectures.

I would like to thank to the organizing committee and the presidents of this wonderful meeting for their invitation and the opportunity given to me and also to the ERUS Board.

Prof. Rocco, Prof. Bianchi and Prof. Canda

Prof. Dal Moro and Prof. Canda

Prof. Dal Moro and Prof. Canda

Prof. Liatsikos and Prof. Canda

Prof. Canda giving a talk.

Prof. Rassweiler and uroband during live music performance.

Dr. Canda with the certificate.
