*Dr. Canda is a Board Member of ERUS (European Association of Urology Robotic Urology Section)
 **ERUS certified training centre

EAU European Urology Forum 2017 was held on 4-7. February. 2017 in Davos, Switzerland.

I was invited to give 3 talks (each 20 minutes) during this wonderful meeting for the Urological Challenge.

This meeting was a great experience for me that gave me the chance of presenting our surgical techniques and outcomes on robotic cystectomy with intracorporeal urinary diversion, robotic zero ischemia partial nephrectomy and testis sparing surgery. In addition, it was also great to be challenged by the jury who were composed of world wide known experts in their fields. This meeting also increased my collaboration with the other colleagues you participated in this meeting.

I would like to thank to the organizing committee for the invitation and opportunity to participate in this wonderful meeting.
